

U.S. CONFIRMS SOVIET HYDROGEN TEST

Family Overjoyed Over News of Fayette County POW's Release

Cpl. William Wood

Brothers and sisters shouting and jumping happily, the mother sobbing with joy, were some of the reactions in a small home at 1045½ Elm Street in Washington C. H., Wednesday evening, when the report was received there that Cpl. William E. Wood, a son and brother of that household, had been released from a prisoner of war camp in North Korea.

The mother, Mrs. Earl Wood, said "I can hardly believe it, I've been waiting to hear such news since he was taken a prisoner in May of 1951." The brothers and sisters didn't know what to do or say. They haven't seen their brother for over two years.

"I felt sure he was all right and I never gave up hope," Mrs. Wood told a Record-Herald reporter Thursday morning.

Mrs. Wood called the Herald office and in a shaky and trembling voice, indicating both happiness and tears, said her son had been released and that she "was so thankful that she just didn't know what to do." Cpl. Wood's father said he felt the same way.

"Oh boy, oh boy, oh boy," shouted Cpl. Wood's seven brothers and sisters, who are still living at home. Cpl. Wood has five other brothers and sisters who responded in a like manner when they got the welcome news.

MRS. WOOD first got the word that her son had been released at 9 P. M. Wednesday when the Associated Press office in Columbus called and broke the good news.

A telegram was sent to the Wood's residence Thursday morning by the U. S. Army. It stated: "The Secretary of the Army has asked me to inform you that your son, Cpl. William Wood, was returned to military control in Korea (Please turn to Page Sixteen)"

Jap-American POW Awarded Highest Medal

FREEDOM VILLAGE (AP)—A shy young Japanese-American who all alone held back attacking Reds while his men withdrew returned from a Communist prison last night to learn with astonishment that he had won the Medal of Honor.

Sgt. Hiroshi H. Miyamura, 27, of Gallup, N. M., looked bewildered when Brig. Gen. Ralph Osborne told him he had won America's highest award for heroism. Osborne said news of the sergeant's award was kept secret because he was a prisoner and "the Communists might have made it rough for him" if they had known.

There were no official records here to show when Miyamura won the medal, but after much coaxing he shyly acknowledged that it probably was in the battle just before his capture April 25, 1951.

He commanded a machine gun squad of 13 men from the 3rd Division when thousands of Chinese attacked along the Imjin River.

When the Reds overran part of his position, Miyamura said, "I told my men to pull back a little."

"After they took off I went myself. I ran into some Chinese and they threw some grenades and wounded me in the leg. I kept going but got hung up on our own wire."

That was when the Chinese captured him.

Meanderings

By Wash Fayette

For a number of years Ed Fite has grown big sunflowers in a small opening in the sidewalk in front of his store, corner East Court and North streets.

Last year as I recall, Ed produced sunflower that stood around 14 feet in height, and had a flower eight of 10 inches in diameter.

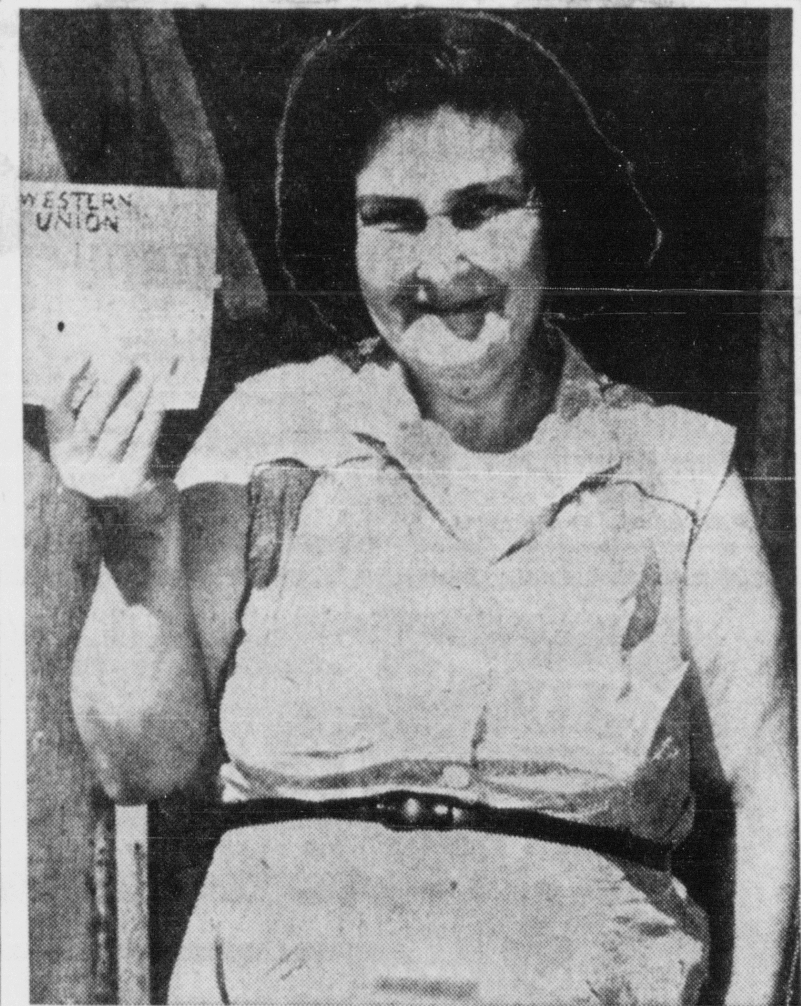

Now he has eight sunflowers growing about a sign post in the sidewalk near the curb.

One of the stalks is 11 feet in height and still has several feet to go before the blossom will be at its best.

The others run from four feet to eight feet in height.

The big one bids fair to equal the giant produced last year, although the several other plants take much of the moisture and nourishment from the tiny circle of ground in which they have root.

Each evening the stalks are given a liberal supply of water, and all of them are doing marvelously well considering the little soil about them.

THE WESTERN UNION TELEGRAM that Mrs. Earl Wood (above) is holding tells the complete story of why she is smiling. The telegram states that her son, Cpl. William Wood, has been released as a prisoner of war in Korea. Mrs. Wood got the telegram Thursday morning. Cpl. Wood was taken prisoner in May of 1951. (Record-Herald photo)

Secret Military Data Taken From Printing Office, Claim

WASHINGTON (AP)—Senate investigators made public today sworn testimony by a former Government Printing Office employee that she knew Edward Rothchild took a code book and other secret military data from the plant during World War II.

The testimony had been received previously in secret session from Miss Clea Guess, now a New Orleans storekeeper.

Rothchild, a bookbinder, declined this week to tell the Senate Investigations subcommittee whether he is a Communist or whether he ever engaged in espionage at the printing office.

Before Miss Guess' testimony was released, the subcommittee had Jack Zucker of Philadelphia in its witness chair.

Zucker was called at the request of Rothchild and his wife, but declined to say whether he knew Rothchild. He also refused, on grounds of possible self-incrimination, to say whether he ever presided at a Communist hearing

which tried Rothchild on a charge of "white chauvinism."

"White chauvinism" means, Chairman McCarthy (R-Wis) said, refusal to treat members of the Negro race on terms of full equality with white people.

Rothchild, 42, was suspended from his GOP job immediately after his refusal to testify before the Senate group.

McCarthy had this to say about two GOP loyalty officials who testified yesterday:

"They're nice fellows and mean well, but they are 'infinitely incompetent as far as passing judgment on loyalty and security matters is concerned.'"

The officials were S. Preston Hipsley, GPO personnel director, and E. C. Mellor, secretary of a loyalty board which let Rothchild stay on his job despite FBI reports linking him with Communists.

Hipsley said so far as he personally was concerned any GPO worker known to be a Communist would get the gate "so fast it would make his head spin."

5,000-Year-Old Prophecy In Stone Says Today Is Marked For Destiny

NEW YORK (AP)—Today's the day.

This is Aug. 20, 1953, a date marked for destiny, according to people who believe in the "prophecy in stone." They expect an event of vast importance to take place somewhere in the world today. Exactly what, deponent saith not. But we shall see.

Briefly, and leaving aside the heavy mathematics, the situation is this:

Some 5,000 years ago, more or less, the grand pyramid was built in Egypt, with sight of the slow-flowing Nile. It became the

tomb of a king, Cheops, and his queen. It was a mighty mausoleum, a monument to a man's ego, a miraculous feat of engineering and presumably nothing more.

But was it?

For about a century now, scientists have been prowling around the pyramid, inside and out, taking measurements. They noted that the four sides of the base correspond to the cardinal points of the compass. And they found the aperture focussed on the North Star.

Other facts emerged, things

that seemed to indicate the pyramid was something more than just a pile of massive stone, honeycombed with passageways and the cry of the king and queen.

In 1964, Charles Piazzi Smith, royal astronomer of Scotland, brought out a book called "Our Inheritance in the Grand Pyramid." The Abbot Moreaux of France followed with additional calculations, based on his measurements.

They theorized the pyramid had been built in conformity with some orthodox astronomical prin-

ciples—principles well known in modern science, but presumably far beyond the knowledge of the ancient Egyptians.

From this came a still more sensational theory, namely, that the pyramid foretells the whole future of this world, the fate of nations, the wars, Armageddon, and so on to the end.

Hence, "the prophecy in stone."

The distances of the corridors, angles of passageways, intersections of ground lines, and in fact, the relationship between each of (Please turn to Page Sixteen)

Old Mossadegh Given Orders To Surrender

Iranian Shah Ready To Fly Back To Throne After Bloody Coup

TEHRAN (AP)—Iran's new royalist premier, Fazollah Zahedi, today gave his fugitive predecessor, wily old Mohammed Mossadegh, 24 hours to surrender.

In Rome, Shah Mohammed Reza Pahlavi hurried preparations to fly back to the homeland from which he fled four days ago.

Tehran radio said Mossadegh, his wife and children had been removed from the Iranian capital under the protection of the new government.

The radio broadcast quoted Zahedi as saying the Shah had told him to save Mossadegh's life. The ex-premier, Zahedi said, would be given a public trial, however.

Zahedi moved quickly to spike the guns of the outlawed Communist Tudeh party, often Mossadegh's backer. He broadcast promises of an eight-point program of social reforms for Iran's poverty-stricken 15 million peasants.

IT INCLUDED a raised standard of living, free health services, mechanization of agriculture, road construction and promotion of co-operative societies.

The Iranian mob which had kept the British-hating Mossadegh in power for 28 months drove him out yesterday with hundreds dying in the last-ditch stand around a Hitler-type bunker at his home.

Then they installed the premier the Shah named last weekend.

Estimates put the dead at 300 or more in yesterday's fighting around key points in Tehran, but officials of the new government said the royalists took over with a minimum of bloodshed.

Mossadegh and his chief henchman, Foreign Minister Hossein Fatemi, were the objects of a nationwide hunt today. Earlier reports that the mob had "torn Fatemi to bits" apparently were in error.

The ex-premier's furniture, pilaged by the mob, was on sale in the city bazaar at reduced prices.

Officials in London hoped Zahedi would move quickly to settle Mossadegh's two-year-old battle with Britain over the nationalized properties of the British-owned Anglo-Iranian Oil Co. Some London newspapers expressed fear, however, that Mossadegh's upset would bring new pressure on Iran from her big neighbor to the north, the Soviet Union.

American officials in Washington were hopeful the new government would be able to stabilize the country and secure it against any Communist bid for power. State Department officials were reported maintaining an attitude of watchful waiting.

New Strike Orders Issued In France

PARIS (AP)—New strike orders went out today from non-Communist unions to hundreds of thousands of workers in the metal industries and building trades.

They were 48-hour stoppages directed to begin tomorrow, but workers were already reported walking off the job in big plants like the nationalized Renault auto factory in Paris which employs 37,000. At least one million other workers were still idle in the 13th day of the strikes.

Blow Hits Isles

MANILA (AP)—A 95-mile-an-hour Pacific typhoon hit the island cluster off the Philippines' north tip today.

State Examiner's Report Shows Findings Against This City's Transactions

COLUMBUS, Aug. 20 (AP)—A state examiner's report released today shows \$53,336 in illegal distributions was made by the City of Washington C. H., from May 1, 1950 to June 30, 1952.

The report terms certain illegal distribution of city funds due to failure to advertise for bids and to enter into written contracts on purchases exceeding \$1,000.

They included purchases of street materials, gasoline, traffic lights, automotive equipment and payment for heating, plumbing and electrical work.

State Auditor James A. Rhodes said Washington C. H. city officials were directed to pay \$13,104

from the general fund into the gasoline and motor vehicle license fund.

The order resulted from use of \$13,104 in street money to pay for janitor services at city hall and for labor at the city dump, Rhodes reported.

The city firemen's relief and pension fund was ordered to repay the state treasurer \$1,357 for subsidies it was not entitled to receive.

Rhodes gave this explanation: "Cities must make annual financial statements to the state auditor to qualify for state aid for police and firemen's pension funds."

"The city auditor and secretary of the city firemen's pension fund in their annual report failed to show \$19,300 in government bonds held by the fund."

"As a result the examiner's report said, 'the auditor of state, assuming the pension fund owned no bonds or securities, paid monies to the pension fund to which it was not entitled.'"

Rhodes added that the \$1,357 finding was paid.

Copies of the report, made by (Please Turn To Page Two)

2 Telephone Exchanges Hit By Strikers

INDIANAPOLIS (AP)—Strike demonstrations in three cities last night led to property damage at two Indiana Bell Telephone exchanges and a break-in at one.

Company spokesmen said "mobs" broke windows in Elwood and Alexandria and forced their way into the Elwood exchange. A parade in Kokomo produced threats but no actual damage.

The disturbances came after a spokesman for the striking CIO Communications Workers of America had accused the American Telephone and Telegraph Co. of fomenting the telephone strike.

An Indiana Bell spokesman at Elwood said the picket line there suddenly increased to 50 or 75 pickets at the time of an expected shift change. However, the change had been made early, and no workers tried to enter or leave the exchange.

The spokesman said the crowd broke windows, smashed in a side door, pulled a power switch and dumped garbage in the room. Workers were on the second floor and were not molested, and an emergency power connection kept service going.

The spokesman said city, county and state police were called but none appeared.

A cable was reported severed north of Anderson, cutting direct communications between Elwood and the county seat.

Japs Spot Soviet Naval Maneuver

TOKYO (AP)—The Japanese press reported today the Soviet Union has stepped up naval activities in the waters near Hokkaido, Japan's northernmost main island.

The lighthouse at Cape Soya, northernmost tip of the island 30 miles from Russian Sakhalin, reported observing three 7,000-ton class Soviet warships cruising toward Sakhalin. "They looked like escort aircraft carriers although no planes were flying overhead," the lighthouse observers said.

Senator Questions Nation's Security

WASHINGTON (AP)—Sen. Potter (R-Mich) said today Russia's development of the hydrogen bomb may have been speeded by espionage in this country that "would make the Alger Hiss case look like petty larceny in comparison."

Potter said that the Senate investigation subcommittee's disclosures of "lax and inept" security measures at the Government Printing Office give rise to the question whether these are "typical of the security procedures in other government agencies."

Reds Say Their Hell Bomb Strong

MOSCOW (AP)—The Russians announced today that they have exploded a test hydrogen "hell bomb" of "great strength." They coupled their claim with a new call for international acceptance of a Russian disarmament plan including a ban on atomic weapons.

This was the official Soviet announcement, as reported in the Communist party newspaper Pravda and broadcast by the Moscow radio to the Soviet people.

"Recently in the Soviet Union, the explosion of a type of hydrogen

bomb was carried out with experimental aim. As a result of the possession of the mighty power of thermonuclear fission in the hydrogen bomb, the explosion was of great strength. The test showed the power of the hydrogen bomb is many times greater than the power of atomic bombs."

The communiqué declared Soviet possession of the H-bomb offered no cause for alarm among peoples of other countries. It said the Russian government still favored international disarmament and a ban on weapons of mass destruction.

RECALLING that Prime Minister Georgi M. Malenkov told the Supreme Soviet (parliament) Aug. 8 that the United States no longer held a monopoly of the hydrogen bomb, the statement charged that Malenkov's remarks had been used abroad "to cause alarm, using it with the aim of intensifying the armaments drive."

"The Soviet government considers it necessary to declare there is not, and was not, any foundation for alarm. In accordance with the unchanging policy of the Soviet (Please turn to Page Sixteen)"

Gulf, Northwest Getting Rains

CHICAGO (AP)—There were more showers along the Gulf Coast today while light rain fell in the northern plains and in eastern Washington and Oregon. Elsewhere fair weather was reported.

Showers and thunderstorms hit the southern states yesterday from Georgia and Florida westward to New Mexico and Arizona and northward over the Rocky Mountain states to the western sections of the Great Plains.

Temperatures of 100 degrees were reported in the far Southwest again yesterday. The day's top was 109 in El Centro, Calif.

Bomber Explodes High Over Desert

PICACHO, Ariz. (AP)—A giant B-50 bomber was shattered by a tremendous explosion over the Arizona desert early today and plunged to the ground in flames.

The 12-man crew of the four-engine ship parachuted into the darkness. They were apparently badly mauled by the impact. The Pinal County sheriff's office reported that many were severely injured and one died.

Shooters Elect

DAYTON (AP)—C. E. Huber, retired bus-line operator from Tiffin, today was elected president of the Amateur Trapshooting Association of America.

Redlegs Claimed Firing Hornsby

MILWAUKEE (AP)—Eddie Sawyer, former manager of the Philadelphia Phils, is scheduled to replace Rogers Hornsby as Cincinnati pilot next year, the Milwaukee Sentinel said it had learned today.

The Sentinel said Hornsby, who came to the Redlegs after being fired from the Browns last year, would be through at the end of the season. However, in Washington, Redlegs general manager Gabe Paul said, "Rogers Hornsby is our general, quote and unquote."

Taft Memorial Set

CINCINNATI (AP)—A \$100,000 donation for cancer research has been given to Christ Hospital Institute of Medical Research here by former Common Pleas Judge Alfred K. Nippert as a memorial to Sen. Robert A. Taft.

Whether Bomb Actually Made Is Not Told

American Scientists Detect Red Explosion Morning Of Aug. 12

WASHINGTON (AP)—The United States today confirmed Russia's boast of having touched off a hydrogen explosion but implied that this country has a two-year lead in the race to perfect the most awesome weapon known.

Whether either country has yet developed a true "hell bomb"—that is, a device compact enough to be carried aboard a warplane, remains unknown to the public.

The Communist newspaper Pravda said in Moscow late last night "the explosion of a type of hydrogen bomb was carried out with experimental aim."

This prompted chairman Lewis L. Strauss of the Atomic Energy Commission to announce:

1. U. S. atomic sleuths had in fact detected a Soviet atomic blast eight days ago and then later determined that both convention and H-type reactions were involved.

2. U. S. atomic tests in the Pacific in both 1951 and 1952 involved similar reactions.

STRAUSS SAID: "The Soviet Union conducted an atomic test on the morning of Aug. 12. Certain information to this effect came into our hands that night. Subsequent information on the subject indicates that this test involved both fission and thermonuclear reactions."

"Thermonuclear" is the word scientists use to describe a hydrogen explosion. Unlike conventional uranium bombs, which produce their energy from the fission or splitting of atoms, the hydrogen bomb would get its explosive force from the fusion of hydrogen atoms to produce helium.

Scientists have said that the only way to produce the terrific heat required to start this fusion process would be by the detonation of a conventional atomic bomb.

That might account for Strauss' reference to "both fission and thermonuclear reactions."

"It will be recalled," Strauss continued, "that more than three years ago the United States decided to accelerate work on all forms of atomic weapons. Both the 1951 and 1952 Eniwetok test series included tests involving similar reaction."

While there was no official elaboration, this seemed to imply a claim that the United States may have reached in the spring of 1951 a stage in hydrogen bomb development near that at which the Soviets now stand.

THE STATEMENT also, without saying in so many words that this country had exploded a hydrogen bomb, went further than the AEC did immediately after the 1951 and 1952 test series at the Eniwetok Proving Ground in the Pacific.

On May 25, 1951, the AEC announced successful conclusion of "experiments contributing to the thermonuclear weapons research."

At the time, the general interpretation was that perhaps a small quantity of hydrogen had been fused to produce an explosion.

Employing almost identical language after last autumn's series, the commission announced completion of tests which "included experiments contributing to thermonuclear weapons research."

Shortly before that announcement, however, letters began arriving in this country from members of the task force conducting the Eniwetok tests. A number of them spoke of an unprecedented explosion which made an entire island disappear.

The AEC declined to elaborate in any way on Strauss' statement.

President Eisenhower, returning to his Denver vacation headquarters about the time the Pravda announcement was made, had no comment.

Rep. W. Sterling Cole (R-N.Y.), chairman of the Senate-House Atomic Energy Committee, said that "we must assume it is true because it would be folly to assume that it is not within their power to develop the H-bomb."

The process by which this country can detect an atomic explosion abroad has never been officially explained. It is believed to be based primarily on samplings of the upper air for the radioactivity.

Many Veteran Fliers To Be In Air Show

Great Program Is
Planned At Dayton
Event Sept. 5-6-7

Forty top-notch Army fliers with a total flight time of more than 80,000 hours will provide many thrills for spectators during the National Aircraft Show Sept. 5-6-7 at the Cox Municipal Airport, at Vandallia.

The demonstration team represents years of flying experience in war and peace-time duty. Most of the airmen here are veterans of World War II and many have seen action in Korea.

A veritable king-size rainbow could be made of their combined decoration ribbons. Among them they hold Air Medals, Bronze Stars, Combat Infantry Badges, Silver Stars, Purple Hearts, the Distinguished Flying Cross and a Presidential Citation.

The group's leader is Lt. Col. Theodore F. Schirmacher, of San Antonio, Texas. Schirmacher was a 3rd Infantry Division in the European Theater in World War II. Now chief of flight training at the Army Aviation School, he was in structure in the first experimental Army pilot course at Fort Sill, Okla., in 1942. Schirmacher is a veteran of more than 6,000 hours in the air.

Narrator for the demonstration activities is Captain Levon G. Baxter of Boise, Idaho. Baxter served in Korea with the Second Infantry Division and holds the Air Medal—which in the Army represents 35 combat missions—and the Bronze Star.

Ten of the pilots will fly the L-19 Bird Dog aircraft in demonstrations of evasive maneuvers, parades, deadstick landings and message pick-ups.

The H-13 helicopter square dance, a highlight of the show, is the specialty of four other airmen. The H-13 also will be seen in a medical evacuation demonstration and dead engine spot landings.

Other events of the demonstration will feature barrier takeoffs by the L-19 Bird Dog, the L-20 Beaver, the L-23 and H-13, barrier landings by these aircraft, wire laying, airlift of infantry troops by H-19 helicopters, free fall re-supply and parachute re-supply.

The National Aircraft Show, one of Ohio's top Sesquiennial events, is a non-profit project. All of the proceeds go to the Army, Navy, Marine and Air Force Aid societies to help the families of those killed in service.

State Examiner's

(Continued from page 1)
State Examiner Mark O. Armstrong, are in the hands of City Solicitor William Junk and City Auditor Miss Marie Melvin.

The report, in addition to the information given in the foregoing Associated Press story out of Columbus, calls attention of council to the law requiring the reading of ordinances, which are not emergency measures, at three separate meetings.

Transfer of \$10,000 from the sewage disposal fund (which was later repaid) to meet a financial emergency, was sharply criticized in the report.

The report also held that \$1,860 paid Fire Chief George Hall for extra services as disposal plant superintendent, is illegal, and criticizes the combining of the two posts of fire chief and disposal plant superintendent, as unlawful.

A finding against Fayette County for \$564.30 for keeping prisoners in state cases in the Cincinnati Workhouse, was also made.

Other technical violations are cited in the report.

The Donald Flander, police clerk, embezzlement case is covered in the report.

While this report does not include actions under any of the administration of City Manager James F. Parkinson, in commenting upon the report, in connection with transfer of funds from the gasoline and motor vehicle tax funds to the general fund, he stated:

"This has been done for years,

and probably will continue to be done as long as the city is in financial difficulties.

"This situation is a direct result of the state's failure to give local governments an adequate share of the sales tax."

Mainly About People

Mrs. Noah Fulkerson, of Highland, was admitted to Memorial Hospital, Wednesday afternoon. She is a medical patient.

Clay Snyder, 901 Forest Street, entered Memorial Hospital, Wednesday afternoon. He is a patient for observation and treatment.

Mrs. Charles Wood and infant daughter, were returned from Memorial Hospital, to their home, Route 2, New Holland, Wednesday afternoon.

Mrs. James Smith was released from Memorial Hospital, to her home in Jeffersonville, Wednesday afternoon. She is recovering following surgery.

Robert Crosswhite, 548 Harrison Street, is a patient in Memorial Hospital, for observation and treatment. He was admitted Wednesday afternoon.

Freddie Sheppard (newsboy), 804 East Temple Street, was admitted to Memorial Hospital, Wednesday afternoon, where he underwent bone surgery on his hip, Thursday morning.

Blessed Events

A seven pound, nine ounce son was born to Mr. and Mrs. Elmer Carson, Jr., of Bloomingburg, in Memorial Hospital, at 4:29 A. M. Thursday.

A daughter, weighing seven pounds, eleven ounces, was born in Memorial Hospital, at 1:27 A. M. Thursday, to Mr. and Mrs. Sam Coll, Jr., of the Columbus Road.

Mr. and Mrs. Howard Downs, Route 1, Mt. Sterling, are the parents of a son, weighing five pounds, thirteen ounces, born at 6:48 A. M. Thursday, in Memorial Hospital.

Mr. and Mrs. Everett Yarger, 619 Eastern Avenue, are the parents of a seven pound, twelve ounce daughter, born at 7:45 A. M. Thursday, in Memorial Hospital. Mrs. Yarger was taken to the hospital early Thursday morning in the Gerstner ambulance.

Ausburn Rowe Dies In Hospital

Ausburn Rowe, 78, died at Memorial Hospital at 3 P. M. Wednesday. Mr. Rowe was born in Fayette County and lived all of his life here. He made his home in Bloomingburg.

He is survived by one daughter, Mrs. Zelma Glisson of Springfield; one brother, Frank of Bloomingburg and two sisters, Clara May Rowe, Bloomingburg and Mrs. Josie Williams of Springfield.

Funeral services will be held at 2 P. M. Saturday at the Parrett Funeral Home. Rev. Lester Taylor will officiate at the services.

Interment will be in the Bloomingburg Cemetery.

Friends may call any time at the funeral home.

Van Fleet Back On Korean Soil

SEOUL (AP)—Retired Gen. James A. Van Fleet came back to Korea on a welfare mission today, six months after giving up command of the U. S. 8th Army.

He is a member of an 11-man civilian group representing the American-Korean Foundation, which is prepared to give \$500,000 in emergency aid to Korea.

Ike Studying Reports On Red H-Bomb

DENVER (AP)—President Eisenhower was back at the summer White House here today with a top secret report on how the United States learned about Soviet Union tests indicating Russia may have the hydrogen bomb.

Eisenhower had no comment on the Moscow newspaper Pravda's statement last night that Russia recently touched off a hydrogen bomb explosion.

Presidential Press Secretary James C. Hagerty told newsmen there would be no elaboration here on the Atomic Energy Commission's quick followup announcement in Washington that the Soviet conducted tests Aug. 12 which, on the basis of the commission's information, involved "both fission and thermonuclear reactions."

Fission means atomic tests while thermonuclear is the technical term for hydrogen bomb activity.

Eisenhower returned to his vacation headquarters here by plane last night from New York.

There, at the dedication of a housing project, he declared that families with a proper and decent living standard constitute a better defense against communism than "any bomb of whatever kind."

"That is the kind of thing that will preserve this nation," the chief executive said in a brief speech at the ceremonies.

There is no doubt now that Eisenhower made his remark about defense against any kind of bomb after receiving a secret report on the Soviet tests.

Auto Operating Cost: 9c A Mile

NEW YORK (AP)—It costs almost 6 per cent more to run your car now than it did two years ago, says the American Automobile Assn.

Reporting its findings yesterday after a nationwide survey, the association said over-all car upkeep this year—for the average motorist who drives 10,000 miles annually—amounts to \$908. The average figure in 1951 was \$861.

The survey covered increases ranging from gasoline and oil prices to insurance fees.

Extra GG Doses Available For Polio

NEW YORK (AP)—Almost one-third more gamma globulin than was anticipated for this year has become available for inoculations against polio.

The National Foundation for Infantile Paralysis announced yesterday an additional 2,250,000 cubic centimeters of the blood product—enough for 320,000 average doses—had become available. It will be used entirely where polio has reached "critical incidence."

Funeral Service For Mrs. Virginia Partlow

Funeral services were held for Mrs. Marian Virginia Partlow at 2 P. M. Wednesday at the Church of Christ in Christian Union, in New Holland.

Rev. Harry Knisley of Chillicothe officiated at the services. He offered prayer, read the Scripture and delivered the sermon. Rev. and Mrs. Floyd Rittenhouse sang two hymns, "Abide With Me," and "This World Is Not My Own."

The pallbearers were James Doyle, Alfred Flack, Ralph Houser, Arnold Downing, Richard Partlow and Edward Pence.

Burial was in the New Holland Cemetery.

MONEY RAISING SOCIAL

An ice cream social will be held Thursday (tonight) at the high school building on Paint Street in order to help raise money to buy uniforms for the Washington C. H. High School band.

The social will begin at 6:30 P. M. All of the band members' parents are donating cakes and ice cream. Coffee, orange pop and Coca-Cola will also be for sale.

Features at the Theaters

Pier Angeli, Ethel Barrymore, Leslie Caron, Kirk Douglas, Farley Granger, James Mason, Agnes Moorehead and Moira Shearer form the stellar aggregation of "The Story of Three Loves," which will be shown Sunday and Monday at the Fayette Theater.

The Technicolor picture forms three romances, the first involving a theater impresario and a ballet dancer; the second, a young French governess and the stranger who changes her life; the third a famed aerialist and the girl who becomes his partner in a daring trapeze act.

At the Fayette on Tuesday and Wednesday will be the science-fiction thriller, "Phantom From Space." Heading the cast are Ted Cooper, Rudolph Anders, Noreen Nash and James Seay.

Robert Taylor and Ava Gardner are teamed for M-G-M's outdoor drama, "Ride, Vagabond," which will be the feature at the Fayette on Thursday, Friday and Saturday. Howard Keel is a third star in the picture of the old Southwest filmed on location in Kanab, Utah.

COLUMBIA Pictures' "Siren of Bagdad," starring Paul Henreid and Patricia Medina in Technicolor, opens at the State Theater on Sunday for a three day run. This comedy about an Oriental harem features Hans Conried in the top supporting role.

Also sharing the bill on Sunday, Monday and Tuesday at the State is the Technicolor drama, "Arrow Head" starring Charleton Heston, Katy Jurado and Jack Palance.

At the State on Wednesday and Thursday will be the romantic sea adventure, "Fair Wind to Java," starring Fred MacMurray and Vera Ralston.

Fred MacMurray portrays a rugged sea captain in the Dutch sea lanes of Java and Vera Ralston plays a Javanese slave girl.

The second feature at the State on Wednesday and Thursday will be "Member of the Wedding" starring Ethel Waters, Julie Harris and Brandon DeWilde.

Julie Harris takes the part of a

girl who grew up in the space of one moment, and Ethel Waters plays the faithful servant of the family.

Opening at the State on Friday for a two-day run will be "Rebel City," starring Wild Bill Elliott and Marjorie Lord. Wild Bill Elliott portrays a gambler of the old West searching for the murderer of his father.

Also at the State on Friday and Saturday will be Abbott and Costello in "Society."

"BAD BLONDE," starring Barbara Payton and Frederick Valk will be at the Drive-In Theater on Sunday and Monday. The story involves a prize fighter and a murderer.

Sharing the billing at the Drive-In on Sunday and Monday will be an all-girl show, "College Capers," a third dimension.

On Tuesday and Wednesday at the Drive-In will be "The Mighty Joe Young," starring Terry Moore and Ben Johnson.

Playing Thursday at the Drive-In will be the historical drama in Cinécolor, "Hiawatha" featuring Vincent Edwards, Yvette Dugay and Kieth Larsen.

The character of Henry Longfellow's famous poem, "Hiawatha" is portrayed by Vincent Edwards, who falls in love with the Indian girl, Minnehaha.

"Carson City," a Western drama co-stars Lucille Norman and Randolph Scott who plays a railroad engineer who is hired to build a line from Carson City to Virginia City. It will begin at the Drive-In on Friday for two-day run.

The second feature on Friday and Saturday nights will be "Lovely Look At," starring Kathryn Grayson, Red Skelton, Howard Keel, Marge and Gower Champion, Ann Miller and Zsa Zsa Gabor.

The musical in Technicolor involves the attempt of two Americans to buy a Paris dress shop.

On Saturday midnight at the Drive-In will be "Savage Mutiny," a story of the jungle starring Johnny Weissmuller who tries to settle a tribal revolt.

Grain Markets

CHICAGO—Wheat showed the first flicker of strength it has displayed all week by jumping a couple of cents on the Board of Trade today.

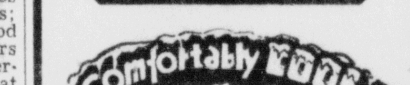

The bread cereal made its advance after slumping at the opening of the session and yesterday's liquidation.

Wheat also was aided by a firm tone in cash prices at Minneapolis. Price changes in other cereals were small with oats displaying an easier undertone.

Wheat near noon was 2 to 2 1/4 higher, September 71.84 1/2, corn 1/2 higher, September 147 1/2, oats 1/2-3/4 lower, September 74 1/2, soybeans 1 to 1 1/4 higher, September 42 1/2, and 1/2 cents lower to 25 cents a hundred pounds higher, September 14 7/8.

Loss Of Taft Looms Large As Time Goes On

As time goes on, from nearly every section of the nation, there comes words of appreciation indicating that the nation as a whole is just beginning to realize what the recent loss of Senator Robert Taft, means to the immediate future of the national administration policy.

As many heretofore unpublished incidents showing his statesmanship, almost daily come to public attention, it all proves that this great Ohioan will live in history as a great American.

The death of Senator Taft was a national loss in the fullest sense—to a far greater extent than any other man he symbolized the hopes and faiths and philosophies of millions of American citizens. Of immediate concern, the extent of this loss to the Eisenhower Administration is difficult to exaggerate. The senator knew this—he said to a friend, after his doctors had told him how serious his condition was, that he prayed to be given a few months more of life "Because 'Ike' needs me so."

What Senator Taft gave the administration was a leadership that for various reasons, one undoubtedly being inexperience, the president and other top men have not been able to provide so far. He threw himself wholeheartedly into the task of trying to make this administration a success, and in the process he often subjugated his own ideas. Without his work, the Eisenhower legislative program probably would have received more reverses than has actually been the case.

This is why practically all the commentators have said that no one in the Senate can possibly replace Taft as leader. That view is not a criticism of the abilities of the new leader, Senator Knowland. It simply recognizes the fact that no one has Taft's talent for getting things done, in reconciling divergent

views, and in bringing order out of potential chaos. And certainly no other senator has anything resembling the standing Taft had with the Democratic bloc—which is enormously important in an evenly-divided Senate.

Brutality and Cruelty

Most people are appalled by the stories of brutality and horror that returning prisoners tell about the Korean War. They were starved, beaten, locked in freezing cells. Their wounds festered and their gangrenous legs were permitted to rot.

Most Americans are infuriated by these stories. Others, who have fought our enemies and know their true nature, are equally angry but are not surprised by the cruelties.

Recently many Americans were horrified to hear of Communist soldiers rolling their dead down hills, laughing as the dead arms and legs whirled in the macabre cartwheel of the bodies. A happening such as this is not startling to those who know that Red soldiers in Eastern Asia look upon the death of men with the same feeling of boys who pick the legs from flies and mash them.

Many Americans can hardly comprehend these facts. Many have refused to believe them. Perhaps the stories of the returning soldiers will convince the doubters. The truce, important at the moment, is but a maneuver of convenience by the Reds. It does not change their purpose of conquest, or alter their nature. They have shifted to political battlefields but they remain poised to fight us again.

We will be foolish if we relax, for one instant, our watchfulness in the impending political and diplomatic transactions. We will be foolish if we lessen our preparations to meet them, if necessary, in battle again.

Are Photographers People!

NEW YORK (AP)—In reading one of Frank Noel's stories of life in a Chinese prison camp the other day, I was struck by a particular line. He had written:

"I went down to Hamhung to get some film, but I was in a hurry to get back to the front because the best pictures were there."

Frank, or "Pappy" as we called him, is a news photographer. The Chinese grabbed him in that bleak and anxious winter of 1950 when the dam went bust in Korea. Now, 32 months and several lifetimes later, he has been sprung. His memoirs make fascinating reading.

As you may know, there is an eternal debate in this ink-stained trade of ours over the question: Are photographers people?

Personally, I think they are, although there are many points that have to be conceded to the opposite side of the argument. The important fact is, I suppose, that a news photographer sees the world exclusively through that square wire finder on his camera.

And this, for him, is the only true and valid world. He lives there. Few things that happen outside are likely to merit his serious attention.

Moreover, he is a harassed man. A reporter can come along, after the story has happened, and pick up the details from someone

else who saw it. But a photographer has to be there with his hand on the trigger at the precise split second or else.

Hence, you can understand when Pappy wrote that he was in a hurry to get back where the pictures were.

This was up around the Changjin Reservoir, and Pappy had been tagging along with the Marines for some six weeks or more. It is easy for a war correspondent, news or photos, to fall in love with a Marine unit in the field, and Pappy apparently had a bad case.

Once, when we were able to reach him on the telephone, we asked if he didn't want to come out of the snow and mountains for a little relief.

"Nope," he said. And that was all. He hung up.

Writing wasn't his job, but he used to scribble a few hundred words in pencil on the back of a photomailer, a large manila envelope, to tell little anecdotes of life with the Marines. More often than not, we found news and color in these that we hadn't seen anywhere else.

Then came the terrible days when the roof fell in around the center of the line.

The Marines obviously were in a bad spot, with a collapsed flank and the Chinese pouring toward the rear.

By Relman Morin

(Substituting For Hal Boyle)

Pappy could have come out before the roads were completely closed, but the last time he was on the telephone, he said he was going to stay. "I feel better up with the kids," he said. He was all of 45 himself at that time.

Then, for a week, we heard no more.

One morning in early December the news came. A group of 18 Marines broke out; they had seen Pappy captured in an ambush.

For along moment, nobody spoke.

Everybody had his own thoughts. Bill Moore, another AP man, never did come back. We could hope that Pappy, at least, was a prisoner. Two of us had been in prison camps in the other war. A third narrowly missed it, having been shot down over the ocean. Fortunately, he was a photographer, name of Bill Achatz, so he survived nicely, floating around for five days in a rubber boat.

We talked over all the angles and possibilities, the way you do when you are trying to find some good in a bad situation. Finally, somebody said:

"Well, don't forget Pappy is a photographer. He'll stay alive just to keep from missing a picture."

That's the way they are, those characters.

We Should Get The "How" Of It

Newspapermen are trained to ask who, when, where, why, how. That was what we were taught when I was young and editors insisted upon it. Today, too many reporters have become genteel and ask their questions politely.

When it is discovered that a fellow such as Alger Hiss is way up in the State Department, it seems suddenly to have become boorish to ask how he got there; who appointed him; who promoted him. When our atom bomb is stolen, petitions circulate among the cultured folks of our day to get clemency for the Rosenbergs and if one is so bold as to ask who screened the various spies in that particular apparatus, the cry of McCarthyism is heard in the land.

If one asks how a person like Marzani got into the OSS, which is now the CIA, it is less majestic even to inquire as to who appointed Marzani and why. If a professor refuses to answer whether he was or is now a spy, the questioner is attacked as an enemy of intellectuals and of academic freedom.

Only recently I was told that one should not be so persistent.

ly one-sided, that it is unpopular to go after the Communists, fellow-travelers and dupes (dopes is a better word). One should be broad-minded, I am told. Yet, the atom bomb was stolen and the hydrogen bomb was stolen and only Maelnkov knows what else his agents stole in this country. We need to know how it was done.

The Jenner Committee of the Senate has been working on the pattern of infiltration, and while they have shown how spies and Communists, once inside the government, promote each other, there is a yet no evidence to show how these people got into the government, who opened the doors for them, who protected their records against unfavorable screening. Those who are studying the problem most closely admit that the surface has barely been scratched.

This, however, is clear: Every senator and every representative who has moved into the battle against spies and Communists has been smeared, attacked and often destroyed. This goes back as far as Martin Dies. It is a curious phenomenon in American life that those who fight Communism and espionage are attacked, while the Communists and spies are retained, promoted and secreted until they are brought before a congressional committee.

The "Richmond (Virginia) News-Leader" makes the interesting point of this smearing: "...Public attention has been diverted down a thousand irrelevant and largely insignificant alleyways; and in the process, our perspective has become badly distorted. You hear it said, in all solemn seriousness, that 'McCarthyism is a greater danger than Communism.' You hear it said that academic freedom is

being wiped out, that press freedom is critically endangered. You hear that 'innocent people have been smeared' by a 'bunch of character assassins.' To listen to the babble of the bleeding hearts, you would think we never had it so bad."

Then it says: "The babble is obscuring the very purpose of these investigations, which is to determine the how of Communist infiltration into our government, so that having found its source we can root it out..."

This is the whole story. Unless we discover the how, we must be defeated, not only in our work for security but in our efforts toward peace. Our own espionage agency, the CIA, is so new that it is immature in its approach to its tasks. This can be said without adverse criticism of the agency or its personnel. Too often Americans believe that if an agency is created, it ought to be able to work effectively with mature judgment the very next morning. Actually, such an agency as the CIA could take a generation to develop. It took the FBI about that long. Scotland Yard has been developing since 1829.

Spies are easy to hire; the understanding of the product of their espionage is hard to come by. The Russian MVD, successor to the NKVD and the Cheka, is also the successor to the Okhrana which has been in existence for centuries. When to this is added the propaganda genius and the capacity for infiltration of the Communists, who have been at it since 1848, we face a veritable menace. It is a tough fight that can only be won by tough methods.

Diet and Health

Gold Salts May Ease Some Arthritis Cases

By HERMAN N. BUNDESEN

Despite the great publicity given the new drugs, cortisone and ACTH, one treatment found to be of help in combating rheumatoid arthritis is the old stand by, gold salt therapy.

Although many so-called cures have been claimed for rheumatoid arthritis, the exact cause is not known. However, it is believed that this disease is a form of internal allergy to a type of streptococcus germ.

Membranes Inflamed

Almost all the tissues throughout the body can be affected by rheumatoid arthritis, but the joints are primarily attacked. There is an inflammation of the membranes lining the joints and they become thickened. Finally there may be a loss of movement of the joint, and the person can become an invalid if important joints are affected.

Usually, the arthritis begins with vague discomfort in the joints. There is pain in the knees, ankles, elbows and shoulders. It will most often occur on both sides at the same time.

After the disease has been present for a while, X-rays will reveal definite changes of the joints, with destruction of the normal joint. Twenty-five percent of the persons struck with rheumatoid arthritis become invalids, and fifty per cent suffer extreme pain and discomfort from the disease.

Many drugs have been devised to help the person with this disease. The salicylates, of course, have been found to be of help. A new drug known as butazolidin serves to relieve the pain of rheumatoid arthritis. It has been extremely effective but, like all types of drugs, must be used under the careful directions of a physician to prevent serious complications which can occur from its use.

ACTH and cortisone, at one time believed by some to be the

cure-alls in the treatment of arthritis, can also cause severe complications and are recommended for use only in cases that do not respond to other types of treatment.

Gold salts, used for so many years in the treatment of arthritis, are still one of the most useful agents for its management in a number of cases. They will help relieve the discomfort of the majority of the patients suffering from arthritis, and the dangers of toxicity are very slight if given under the care of a physician.

QUESTION AND ANSWER

T. N.: Can a toxic goiter be cured by radioactive iodine?

Answer: Yes, it is used in certain severe cases of toxic goiter in which an operation is not deemed advisable.

Dems Frown On Eleanor's Actions

By Ray Tucker

By RAY TUCKER

WASHINGTON, Aug. 20—Eleanor Roosevelt's return to the political arena as a self-ordained, Democratic Joan of Arc on behalf of her late husband's political philosophy has not been welcomed by the recognized leaders of that party. In their opinion, it will tend to perpetuate and widen the split within their organization.

In creating the National Issues Committee, which will combat President Eisenhower's domestic and foreign policies on the ground that they are "reactionary" and "isolationist," the Hyde Park dowager did not consult the accepted leaders of the Democrats on the personnel or principles of her group.

More so than when she used to show up at the bottom of a coal mine, at a jungle base on a South Pacific Island, or at a country square dance, sometimes to FDR's amused chagrin, she reveals that she is a political law and force unto herself.

TRUMAN OUT—She did not advise former President Harry S. Truman, or ask him to serve on the executive committee, although he considers himself far more of an elder statesman than she is. Since he does not expect to re-enter active politics, he may not be satisfied with her explanation that he was left out because she wanted no prospective candidates on her "nonpartisan" body.

She declared flatly also that the Washington trends she represented

sents and opposes began under his Administration. The Roosevelt faction has long felt that, although Truman voiced his belief in FDR's reforms and used them for vote-getting purposes, he never hoisted a presidential finger to translate them into law.

Mrs. Roosevelt indirectly condemns the Rayburn-Johnson leadership in House and Senate for not furnishing stronger resistance to the Eisenhower program. In fact, her declaration of war came on the very day that other prominent Democrats were boasting that they saved Ike's legislative proposals from Republican sabotage.

ADLAI IGNORED—Swept into the discard, too, are Adlai E. Stevenson and the erstwhile curators of the Roosevelt cult, the Americans for Democratic Action. Like Truman, the 1952 nominee and titular leader was not honored with membership in the National Issues Committee. No prominent ADA-er is included.

And, of course, her program represents a deliberate affront to the Dixie Democrats. On the very foreign and domestic questions which she thinks have been "undermined" since her distinguished husband's death—power, social security, health, education, international cooperation—they have generally supported Eisenhower.

Finally, every Democratic governor at their recent Seattle conference, including James F. Byrnes of South Carolina, ex-

pressed satisfaction with the Eisenhower approach to the Roosevelt-Truman legacy of national problems.

It would be no exaggeration to suggest that, in her opinion, every Democrat is out of step except Eleanor Roosevelt.

PLANNERS—Her executive committee consists of the planners, the regimenters and the spenders in the Roosevelt-Truman regime.

They number such men as Charles F. Brannan, author of the two-price farm program rejected by a Democratic Congress as "socialistic" Oscar Chapman whose views on federalized power were disapproved by Congress and the Supreme Court; Arthur J. Altmeyer, advocate of nationalized medicine; Clark Clifford, who favored Truman's seizure of the steel plants; James G. Patton, head of the radical National Farmers Union, and such labor leaders as Walter P. Reuther, A. J. Hayes and Emil Rieve.

POSSIBILITIES—With the exception of Chapman, none of these men took an active part in Democratic affairs until they tied onto a Roosevelt or Truman payroll.

There are only three Democrats of any prominence who could run for President on the principles enunciated by Mrs. Roosevelt. They are Averell Harriman and Rep. Franklin D. Roosevelt Jr. of New York, and Gov. G. Mennen Williams of Michigan. None could carry more than three or four Southern states.

Ten Game Schedule For Girls' Softball Tourney

MRS. GENE MARK POSES BETWEEN THE two big Coca-Cola trophies which will be awarded to the championship teams of the two regional softball tournaments scheduled for Wilson Field. The girls tournament will be held this week-end and the men's September 4-7 with teams from four states competing. (Record-Herald photo)

A ten game playing schedule beginning with three games Friday night, was announced today for the girls regional softball tournament scheduled for this week-end at Wilson Field. The Warner Service Station girls team from Washington C. H. and the Cleveland champion team will open the tournament at 6:30 Friday evening. Two games Saturday afternoon,

Marine From Here Arrives At Air Station In Hawaii

Marine Sergeant Charles R. Rockhold, 21, son of Mr. and Mrs. Charles H. Rockhold, Washington C. H., has arrived at the Marine Corps Air Station, Kaneohe Bay, Hawaii with the Marine Corps newest fighting organization.

He is serving with Marine Ground Control Interception Squadron 2, working under the 1st Provisional Marine Air-Ground Task Force, FMF, at the Hawaiian Air Station. The task force, which includes both air and ground units, is the Marines' only organization specializing in training which coordinates operations on air, ground and water.

As a member of the Interception Squadron, serving as an electronics operator, Rockhold works on problems involving detection and interception of enemy planes.

A former employee of the Record-Herald, Washington C. H., this Leatherneck entered the service in December, 1951.

Town May Assist With New Crossing

The village of Greenfield is planning to share with the B. & O. Railroad, the cost of a new crossing of the B. & O. Railroad at Sixth Street in that town.

The crossing will cost \$2,056, and the town will pay half of the amount under an agreement with the railroad company.

Evolution Of Ohio's Election System Noted

Sec'y. Ted Brown Says This Year A Good Time To Study

Ohio's Sesquicentennial year, secretary of State Ted Brown states, offers a good opportunity for study of the evolution of Ohio's election system of 150 years ago to present-day precautions taken against fraud and interference with a free and secret ballot.

Some of these changes, he said, will be depicted in the exhibit which his office will have at the Ohio State Fair, August 28-September 4.

Secretary of State Brown said that old ballots and "tickets" used in various counties years ago, some antedating the time of Lincoln and some bearing Lincoln's name, will be displayed. Along with these will be shown the ballot on which Ohioans will be called upon to vote on nine constitutional amendment proposals in November and ballots from other states. Voting machines will also be demonstrated, on which fair visitors may vote on subjects of interest but which will not be found on this year's ballots.

The Secretary of State's booth will be located in the same place as the 1951 and 1952 Ohio State Fairs—near the east entrance of the Ohio Exhibits Building, Mr. Brown announced.

Showing the contrast in the 1803 election system, when Ohio first became a state, and today, Secretary Brown said that one of the first acts of new General Assembly meeting in Chillicothe was to set up rather crude, but effective for that day, election machinery. Each township was designated as a voting district and the places of holding court (court was held in the settlers' homes then) were established as polling places. The early-day law stipulated times for holding election and set 10 A. M. to 4 P. M. as voting hours. Those congregated at the polling places by 9 A. M. were permitted to select three judges and these judges named the Clerks, the latter being compelled to furnish their own poll books.

The Sheriff of the county was charged with the responsibility of furnishing each voting place a ballot box, lock and key. The 1803 law prescribed the building of the box with an "aperture at the top for the purpose of pushing the 'tickets' through" and stipulated that a iron spring bolt should be arranged so as to "lock" the aperture when the last vote had been cast.

On those days, Secretary Brown points out, printed or written "tickets" were furnished by the political parties directly to the voters and it was not until almost the turn of the present century that ballots, as we now know them, were furnished to the voters by election officials.

Typical of the present day efforts of Secretary Brown and the 88 County Election Boards under his supervision to prevent illegal influences upon the voters, the

Part Of Route 42 May Be Relocated

Plans which may result in building U. S. 42 around Xenia, are being studied.

Engineering specifications call for a possible relocation of the route from near the eastern edge of the town, to a point southwest of Xenia, but whether the route would pass to the north or south of the town has not been determined.

At the present time the route through Xenia is not at all satisfactory, and engineers have been studying the situation for some time.

pioneer solons of 150 years ago legislated against bribery, setting a fine of not more than \$500 for any person offering "directly or indirectly, any meat, drink or other reward" with the intention to procure his or any candidate's election. And, again without mentioning cash by name, the voter, himself, was admonished against a longing glance at a hip flask or a supply for the family larder as follows: "And if any elector shall corruptly receive such meat, drink or other reward, he shall forfeit and pay for such offense a sum not to exceed \$100."

"I guess they had their troubles with elections in those days too, when Ohio's population was very small compared to our present day population of eight million," Secretary Brown comments.

Two Men Are Fined By Judge Brubaker

Robert E. Teets, 24, Clarksburg, was found not guilty of driving while drunk when arraigned in municipal court Wednesday, but Judge R. L. Brubaker fined him \$200 and costs and gave him 10 days in jail on a charge of driving while his license was suspended.

Teets' brother, George, 22, was fined \$50 and costs for interfering with an officer; the fine was suspended providing he violates no law in the future. He paid the costs.

On a charge of possessing obscene and lewd photographs he was found not guilty.

William V. Preston, charged with driving while drunk, obtained a continuance until August 22.

Two Washington Attorneys Named

Two members of the legal profession from Washington C. H. have been selected to serve on committees of the Ohio State Bar Association.

The appointments were made by President C. Kenneth Clark of Youngstown upon recommendation of Executive Committeeman Aaron J. Halloran of Springfield.

Attorney Charles S. Hire will serve as a member of the Lawyer Referral Service Committee and Atty. Reed M. Winegardner will serve on the Professional Economics Committee.

Annexation Asked

MIDDLETOWN (AP)—The Armco Steel Corp. has filed a petition with the Butler County Board of Commissioners for the annexation of some 650 acres worth \$50 million to the City of Middletown.

I LOST 38 POUNDS THANKS TO RENNEL

SPRINGFIELD, OHIO—"I had read about Rennel Concentrate and what it had done for so many others so I decided to try it. I'm glad I did," writes Mrs. B. M. Roy, R.D. No. 3. "I started losing weight the very first week. When I started with Rennel I weighed 178 lbs. Now I weigh 140 lbs. and I actually feel 10 years younger. I certainly am recommending Rennel to all my friends, as I know it is the easy and safe way to reduce."

POW Compares Red, Nazi Camps

PANMUNJOM (AP)—A soldier freed here by the Communists, Pfc. Alexander Kreizer, 30, Danbury, Conn., was held in a Nazi concentration camp during World War II. Kreizer, born in Czechoslovakia, was asked by newsmen to compare German and Communist camps.

"Both were rotten," he replied. "The Chinese tried to wear a mask as a friend. The Nazis didn't try to hide their feelings. They called us dogs."

CIO Studying GOP Congress

WASHINGTON (AP)—The CIO Political Action Committee fires its first shots today in a campaign to elect a Congress favorable to organized labor in 1954.

Some of the biggest guns in the CIO were scheduled to wheel into

position as the committee, political arm of the labor organization which claims six million members, assembled for the first time since last fall. An estimated 150 CIO officials were expected to review the last seven months to see how organized labor has made out under the present Republican administration.

Bread Bakers Get New Set Of Troubles

Wave of Dieting
Threaten Sales
Which Are Slipping

By SAM DAWSON
NEW YORK (AP)—Bread bakers have a troubled look today. A new wave of dieting threatens their already slipping sales. And a persistent minority of their customers claim that today's packaged bread isn't as tasty as the loaf that grandmother baked.

The flour and baking industries are anxious for you to believe:

1. The staff of life doesn't deserve banishment from the fare of the over-plump but is really necessary in a balanced diet.

2. Today's enriched bread is much better for you than the old fashioned home baked loaf—having iron and three essential vitamins added and having lost no real nutrient in the bleaching process.

But many can still remember how bread made at home in grandmother's day outstripped modern packaged bread in two ways: You could smell it baking and you could eat it hot.

Bleaching flour to make bread whiter is the result of housewives' preferences, according to George L. Morrison, president of General Baking, which turns out eight million loaves of white bread a week. He says that the miller uses a process similar to that in purifying drinking water and that this removes none of the important food elements.

To combat any complaints about the tastiness of the ordinary loaf, there is a growing movement in the baking industry to bring out premium breads, higher priced, but aimed at every variety of taste or diet. These now account for about five per cent of the daily sales of some 40 million loaves of bread a day.

Ward and General, among others, bring out low-calory breads. Pepperidge Farm is one example of premium bread, with specially rich ingredients. Another is Henry S. Levy & Sons, Brooklyn bakery, whose premium bread is baked on stone hearths without pans. It says that promotion of its premium bread has actually boosted sales of its ordinary bread line.

Dieting is the most worrisome threat to the bakers just now. The American Medical Association holds that 30 million Americans are overweight and life insurance companies claim that the mortality rate among the overweight is 150 per cent that of the rate among the normal weight.

In the flight of Americans from obesity, flour has been one of the chief casualties. Fifty years ago per capita consumption of flour products was 225 pounds a year. Last year it was down to 130 pounds.

Danish Ship Burns

BOSTON (AP)—The 260-foot Danish vessel *Else Basse* broke out in flames 15 miles off Cape Anguille, Me., last night but its crew of 24 and one woman passenger abandoned ship safely.

There are about 13.8 cows for every 100 people in the United States.

Home-Building Boom Is Seen As Continuing

Highly Active Stork Expected To Increase Number Of Fat Years

By SAM DAWSON
NEW YORK (AP)—Seven fat years for home builders have been added to the nation's total. Some in the real estate building are now openly talking of slower days to come.

But others refuse to believe that the seven fat years, since the big boom started in 1947 will be followed by seven lean—as in the biblical tale of Joseph in Egypt.

They say that around 700,000 new homes will be needed each year to take care of new family formations. That perhaps another 300,000 will be needed to replace old houses beyond renovation. If the mortgage market holds up, the next few years shouldn't be too lean.

The highly active stork is the home builder's best friend. The National Association of Home Builders notes today that the population of the United States has just rounded out the 160 million figure. Next month it expects the eight millionth new house to be started.

That will give the nation some 50 million housing units, or about one for each three persons. Back in 1940 the nation's 131 million persons were housed in 35 million units, or almost 4 to a unit.

And then more than half were renters. Now more than half are owners — if you wink at the mortgages on some 10 million homes. The mortgage market may hold the key to which wins the race in the next year or so, the home builders or the stork.

"Banks have become very tight when it comes to credits for builders," complains David Pickett, president of The Gotham Construction Corp. of New York. He fears a building recession the last quarter of this year and into next, if the money market doesn't ease.

The market is tight because mortgages must compete with a big supply of government and private securities in getting money from investors. Total savings are catching up, however. Last year savings were officially placed at 12½ billion dollars. This year the mutual savings banks, savings and loan associations, commercial banks, and life insurance companies all report gains.

Personal savings not turned over to such institutions last year amounted to 37 per cent of total savings, according to George W. Warnecke, who heads a national mortgage investment firm bearing his name.

"Within this margin between actual personal savings and those given in trust to institutions lies the dormant capital available for real estate, stock and bond investment," Warnecke says.

He, however, is one of those who looks for a decline in general home-building activity—although not in where expansion is still the order of the day. And he thinks that for a time interest rates on mortgages are likely to go higher.

If a slump in home building should come, Warnecke points out that the traditional depression-proof investments in real estate are commercial store centers, well-established office buildings, and well-located modern apartment houses. And he adds that comforting thought that "all declines end."

New Earthquakes Hit Greek Isles

ATHENS, Greece (AP)—Athens Observatory reported today that fresh earth tremors shook Greece's quake-devastated Ionian Islands. At least three of the shocks were listed as "moderately strong."

Workers continued to uncover bodies of victims killed in last week's catastrophe.

The observatory said it had recorded 11 more tremors in the island area off the west coast of Greece in the 12 hours ending at 7:30 a. m. today. The series of quakes that began Aug. 8 killed at least 700 inhabitants of three small islands and injured an estimated 1,500.

Walkout Ended

LANCASTER (AP)—A strike begun at Alten Foundry and Machine Works July 31 ended yesterday. Members of the AFL International Molders and Foundry Workers returned to work after ratifying a new contract.

Football Picnic A Decided Success

SOMETHING DIFFERENT HERE WAS the picnic held by the WHS football team at the City Park Wednesday evening, in the shelter house. This was the first event of this type held previous to the football season opening. It was arranged so parents could meet each other and also get acquainted with four new coaches, Dennis Bell, head man, William Buck, Denzil Leggett and Mike Beard. In the top photo, the football players go through the long line of food on the tables; in the lower picture, parents are going through the line to fill their plates up. (Record-Herald photos)

A get-acquainted picnic was held by the 1953 Washington C. H. Blue Lions football members for their parents and families. The idea of the picnic was for the parents to meet each other and also to get to know the four new coaches.

The picnic was held at the new City Park under the shelter house. All kinds of food was brought by the more than 80 football boys, parents and brothers and sisters present.

This is the first year that a picnic of this type has been held here before the start of the football season. The new head coach, Dennis Bell, said after the affair that it was a success and that he thought it was both helpful to the coaches and parents. The other three new coaches are Mike Beard, William Buck and Denzil Leggett. The only hold-over on the WHS coaching staff this year is Harry Townsend. All of the coaches and their families were at the picnic except Leggett, who has not yet moved to this city.

AFTER THE MEAL, Coach Bell made a short talk and introduced all of the coaches to the parents. He told the parents that football practice would officially start today (Thursday) with two practices.

Coach Bell told the assembled group that it would take the co-operation of the parents as well as the boys to make a winning football team. He declared there were four rules that he would insist all the players keep during the season and that it would be up to the parents to see that they do. The four rules are: no smoking or use of any kind of tobacco; no drinking of any type of alcohol; getting plenty of sleep and maintain a good diet; to be a gentleman, not only on the football field but off the field as well.

At one end of the shelter house, a table was set up displaying all of the football equipment that one player requires. Coach Bell ex-

plained each piece of equipment and told how expensive it was for the school to outfit each boy.

THE EQUIPMENT that is needed by the players is as follows, together with the cost: Practice jersey, \$1.95; practice pants, \$4.95; hip pads, \$11.95; shoulder pads,

\$14.95; helmet, \$15.40; rib pads, \$3.95; shoes, \$14.95; thigh pads, \$1.50; blue game pants, \$15; blue game jersey, \$12; white game pants, \$15; white game jersey, \$12 and socks, \$2. The total cost of the items mentioned above is \$125.60 for one player.

Wednesday afternoon, physical

French Chief Tottering As Strikes Hold

PARIS (AP)—France's most serious postwar strike entered its second week today with a million workers still out, railroads and communications still paralyzed and Premier Joseph Laniel's government tottering.

Negotiations between the government and non-Communist unions broke down Monday and there was no prospect of a resumption in sight.

Socialist party leader Guy Mollet told Laniel that any savings he might realize through his touted government financial reforms which touched off the walkouts already have been surpassed by the huge losses to the French economy from the strike.

Nobody contradicted Mollet. It was expected Parliament would be called back from its vacation for a special session next week. Laniel may be thrown out of office in the bitter squabble certain to develop.

The walkout began as a protest against government plans to cut public payrolls and up retirement ages. Now the unions are pressing for all kinds of general wage and bonus rises as well.

Laniel's financial plans, which he said also would be aimed later at the tax-evading rich, appeared definitely wrecked.

Ike Registers For Fall Election

NEW YORK (AP)—President Eisenhower registered yesterday and applied for an absentee ballot so he can vote in the city's mayoralty election in November.

After Eisenhower signed his name to the necessary papers, a reporter inquired: "Mr. President, will you tell us how you're going to vote?"

The President replied: "How do you think?"

Examinations were given to all of the boys in the high school gymnasium. Football practice will be held twice a day, in the morning and afternoon, until school starts and then it will be carried on once a day after school.

Housework Easy Without Nagging Backache

Nagging backache, loss of pep and energy, headaches and dizziness may be due to slow-down of kidney function. Doctors say good kidney function is very important to good health. When some everyday condition, such as stress and strain, causes this important function to slow down, many folks suffer nagging backache—feel miserable. Minor bladder irritations due to cold or wrong diet may cause getting up nights or frequent passages. Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 60 years. It's amazing how many times Doan's give happy relief from these discomforts—help the 16 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

DENTON'S Goodyear Store

Washington C. H. Record-Herald

The Record-Herald Thurs., Aug. 20, 1953 9
Washington C. H., Ohio

C of C Retail Committee Making Christmas Plans

The Retail Committee of the Washington Chamber of Commerce met this week to consider the business district preparations for the coming Christmas season.

The main topic of discussion and the most difficult to solve was the store hours that will be observed during the Christmas buying period, it was stated.

Tentative plans announced are as follows: Christmas opening will be officially Friday, November 27th. The stores will not close until 9 P. M. Friday, December 18, Saturday, December 19, Monday, December 21, Tuesday, December 22 and Wednesday, December 23. All retail stores will close at 5:00 P. M. December 24th.

The retail merchants have expressed the desire to decommercialize Christmas activities, and get back to a more solemn theme of the occasion. In view of this desire, a full life-size nativity scene will adorn the Court House lawn, plus scheduled groups of carolers singing each evening on the lawn near the nativity scene.

It has been planned that on Friday evening, November 27 at 7:00 P. M., the Christmas lights will be turned on for the first time. Santa Claus will make his appearance at this same time and will distribute a candy treat to the children.

It is reported to be the desire of the committee to contact as many caroling groups as possible so that they might take part in the singing program during the holiday season. A loud speaker system will be set up at a particularly good advantage point in the downtown area in order to

carry the sound of singing of carols all over the city.

Santa Claus has been scheduled to pay several Saturday afternoon visits to Washington Court House, and will be on the street and in the various retail stores in order to make it convenient for the boys and girls to contact and make their wishes known to him.

The committee states that there will be a lighted Christmas tree on the Court House lawn and that the streets will be decorated and lighted.

Now Many Wear FALSE TEETH

With Little Worry
Eat, talk, laugh or sneeze without fear of insecure false teeth dropping, slipping or wobbling. FASTEETH holds plates firmer and more comfortably. This pleasant powder has no gummy, gooey, pasty taste or feeling. Doesn't cause nausea. It's alkaline (non-acid). Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

The Nation
Today

By JAMES MARLOW
WASHINGTON (AP)—Perhaps President Eisenhower — now that the Russians have had two rides with one ticket on the hydrogen bomb — will make a public statement about this country's progress with the same weapon.

Malenkov told the Supreme Soviet Aug. 8 the United States no longer had a monopoly on production of the bomb. Today the Communist newspaper Pravda said Russia had actually tested an H-bomb.

This country never has officially claimed to have produced this bomb although the carefully worded statements given out after tests at Eniwetok indicated the United States had the H-bomb.

But when Malenkov made his claim two members of the House of Representatives—both on the Joint Congressional Atomic Energy Committee—said this country has the H-bomb.

And after Pravda's announcement, Lewis L. Strauss, chairman of the Atomic Energy Commission, in a still carefully worded statement said that on Aug. 12 Russia had produced atomic explosions similar to the reaction this country got at Eniwetok.

For weeks there have been Washington rumors that Eisenhower was considering making a talk to the nation, and the world, about this country's achievements with the H-bomb and its awful destructiveness.

One report floating around the capital was:

That there were two schools of thought among Eisenhower's advisers, one urging him to disclose at least some of America's development with the bomb and its awful nature, and the other urging him to say nothing.

C. D. Jackson, Eisenhower's adviser on psychological warfare and certainly one of those to be consulted in any decision about a public statement of this kind, was asked within the past few days:

Was there any truth in a report that a speech on the bomb was already written and lying on Eisenhower's desk, awaiting his decision to deliver it or junk it?

Jackson said he knew nothing about it. Yesterday on his New York trip Eisenhower had breakfast with Jackson and Strauss. This was hours before the Pravda announcement, but seven days after this government had learned of the Aug. 12 Russian atomic explosion.

Strauss, in his statement last night, said this country learned of the atomic explosion by the Communists on Aug. 12 but subsequently—he didn't say precisely when—learned it was of a kind involving "both fission and thermonuclear reactions." Thermonuclear is the scientific term for the hydrogen explosion reaction.

This delay in government announcement about Russian atomic experiments was not unprecedented. When President Truman in 1949 disclosed an atomic test in Russia he said it had occurred several weeks before.

Malenkov's Aug. 8 statement—that the United States no longer had a monopoly on production of the hydrogen bomb—was carefully worded and, because it was, it set the Western world guessing. It implied rather than claimed that Russia had mastered production of the bomb.

The question remained: Russia might have the information but was it capable of making the bomb yet?

On Aug. 12, the day of the Russian test, Secretary of State Dulles said:

There was no evidence that Russia had produced the H-bomb. But he spoke several hours, apparently, before this country's sensitive devices began to pick up evidence of the Russian test that morning.

Since Malenkov spoke only four days before his government made its test, he knew the test would soon be made. It was thought at the time he was bluffing. Now it seems he was understating his claims. Why?

His first guarded statement got a sensational reaction around the world. Just as it began to die down, Pravda made the second claim. Whatever the Russian reason for handling news of the bomb this way, they at least got twice as much attention as they would if nothing had been said until Pravda broke the news today.

And the next time Malenkov makes a guarded claim, even if it's phony, he'll get more attention, and perhaps more belief, than he did this time. Psychologically, the Russians figured this one closely.

Eisenhower will have to decide whether he wants to offset this news from Russia with news about American work on the bomb, plus statements about the future, including national defense and atomic policy.

It is estimated that in the United States more motor vehicles are used for distributing milk than for any other commodity.

Different Type
Program Sept. 1"Musical Signatures"
At Rotary Meet

"Musical Signatures" will be the subject of a demonstration talk by Mary C. Quinn, of Cleveland, public relations supervisor for The Ohio Bell Telephone Company, before members and guests of the Washington Rotary Club at the Country Club at noon on Tuesday, September 1.

MARY C. QUINN

She will trace the history and evolution of various musical instruments and point out the many changes that have occurred in their development. Sound waves created by musical tones have long been a part of telephone research. These studies have led to the development of new techniques and apparatus which are providing improved telephone service.

A feature of her talk is the use of a recording which portrays vividly the range of tones produced by various instruments. These musical recordings were made by artists of the Bell Telephone Orchestra.

Mrs. Quinn is a graduate of Western Reserve University and did graduate work at Northwestern University. She has been with Ohio Bell six years, holding previous positions as interviewer in the employment office and staff assistant in the general traffic office.

Labor Labels
Indiana Chief
'Union-Buster'

INDIANAPOLIS (AP)—Officials of the CIO Communications Workers, facing suits in federal and county courts, accused Gov. George N. Craig today of helping Indiana Bell Telephone Co. in "union-busting."

Mrs. Mae Mann, Indiana CWA director, said the governor was fostering a "police state." She said he should have "given more consideration" to a solution achieved at South Bend in which the union agreed to get rid of out-of-town workers.

The union repeatedly has accused Indiana Bell of bringing in "strike breakers" in the nearly month-long strike against Indiana Bell's 82 exchanges.

Indiana Bell filed suit in federal court in Indianapolis yesterday accusing 24 CWA locals and 58 individual union officers of violating the National Labor Relations Act.

The suit accused the union of "threats, intimidation and coercion against nonstriking employees and against the company through destruction of cable, windows and other property."

It referred specifically to reported outbreaks of violence at South Bend, Fort Wayne, Kokomo, Martinsville and Clinton.

Craig sent state troopers to Clinton Monday after weekend disorders had caused a suspension of telephone service.

Southern states of the United States which do not observe Memorial Day May 30 usually set other dates for decorating graves.

Wide Interest Shown In Field
Day and Plowing Match Events
Scheduled Here Sept. 8 and 9

The big two-day program for the Ohio State Conservation Field Days and Plowing matches, one of the big events here of the Sesquicentennial year celebration, is creating wide-spread interest and causing a lot of comment. Large crowds are expected.

The general program, now completely set up, will take place at the Fayette Herford Ranch on the Robinson Road on Sept. 8 and 9, starting each day at 9:45 A. M., and ending late in the afternoon.

A special program to interest the women who attend, also is to be featured. It will be held in a special large tent to be placed at a convenient spot.

The program as officially announced is as follows:
9:45 A. M.—Flag raising and official opening.

10:00 A. M.—Wagon Tours start. Airplane tour and aerial demonstrations start. Field chopper demonstrations. Hay crusher demonstrations. Land evaluation match (Tuesday, Sept. 8, 2 P. M.)

11 A. M.—A speaking program at Noted speakers of state and national prominence will be present for short talks.

12 noon—The events will be summarized in full radio coverage by three radio stations with special wires running to the grounds.

1:00 P. M.—Plowing contestants will draw for lands at headquarters. (Contour match—Tuesday, Sept. 8) (Level land match—Wednesday, Sept. 9).

1:30 P. M.—Plowing contest: (Contour match—Tuesday, Sept. 8) (Level land match—Wednesday, Sept. 9).

3:30 P. M. (Wednesday)—Announcement of plowing contest winners and presentation of trophies.

The programs arranged for the women attending, have been scheduled as follows:

Tuesday, Sept. 8, 10:00 A. M.—Conservation program.
2:00 P. M.—Sesquicentennial program.

Wednesday, Sept. 9—10:00 A. M.—Home furnishings demonstrations
2:00 P. M.—International exchange youth panel.

All-Time High

WASHINGTON (AP)—U. S. business is enjoying its best summer ever, the Department of Commerce says. A department report yesterday indicated these figures:

Steel and automobile production were at near record rates in July.

A record for any three-month period of manufacturers' sales was set when such sales in June remained above the 26 billion dollar level.

Unemployment in July was the lowest for the month since World War II—1½ million persons.

However, the department also said new orders continued to fall

off in June, to a level five billions below last September's peak, and inventories continued to increase.

Star's Wife Told
To Settle Bills

LOS ANGELES (AP)—A judge has given the estranged wife of actor John Wayne just 10 days to pay up a \$2,082 grocery and liquor bill.

Mrs. Esperanza Wayne had testified during a two-day trial that she was unable to meet her household expenses from the \$1,100 monthly that Wayne is paying her.

Municipal Judge Charles B. McCoy yesterday awarded Sales Markets, Inc., of Encino, judgement

for the \$2,082 plus interest from last June 17 and costs of her suit.

Mrs. Wayne's Cadillac automobile was attached over the bill recently and she came to court in her gardner's pickup truck.

100 'Dry' Years

CINCINNATI (AP)—Frank R. Miller, former bank cashier and telegraph operator, is 100 years old today. "I never drank a drop of liquor or beer in my life," he said.

PERMIT EXTENDED

GREENFIELD — The Ohio Water Pollution Control Board has extended until Jan. 4, 1954, this town's permit to discharge effluent in Paint Creek.

Former Methodist
Bishop, 82, Dies

PORTSMOUTH (AP)—Funeral services will be held Friday in nearby Lucasville for Dr. Francis J. McConnell, former Methodist bishop.

He died yesterday on his 82nd birthday at his Lucasville home.

Dr. McConnell was once president of the Federal Council of Churches of Christ, later known as the National Council of Churches of Christ in the United States. He served as bishop in Denver, Pittsburgh and New York, was in charge of Methodist missions in Mexico and also served in India. For a time he was president of Depauw University.

Reds Plunder Romania's Rich Oil Deposits

Russian War Machine
Needs—and Takes—
Every Drop Produced

BUCHAREST (AP)—Russia's growing war machine today is plundering petroleum-rich Romania of almost the last drop of oil she produces, Western diplomats here report.

Romania is Russia's greatest foreign source of petroleum. To make sure Romanian oil flows almost exclusively to Soviet storage tanks, Russia maintains control over most of Romania's economic life.

It keeps an estimated two to five divisions of Soviet troops here. It has equipped one Romanian armored division and mechanized large segments of an army that once was horse drawn and now numbers 220,000 to 300,000 men.

On top of this, Russia makes sure of Romanian oil by aiding and advising a border guard force of 20,000 to 60,000 men and a police system which may run into hundreds of thousands of uniformed men and plain-clothes agents.

With this control of Romania's economic and political life, Russia has successfully forced the nation's Communist bosses to repair wells and refineries at Ploesti destroyed by Allied bombers during the war.

Western diplomats estimate that production of 1953 may well reach the peak production of 8,600,000 metric tons which Western oil companies attained in 1936. When the Communists took over in 1947, production was a mere 3,810,000 tons a year.

All but one of Ploesti's refineries are back in operation. The Soviets apparently made available the necessary replacement equipment. A new core of Soviet-trained technicians has almost completely replaced experts of the former American, British and Dutch companies who have been slowly dismissed or arrested.

By 1953, the Communist regime hopes to have production up to 10 million tons a year. Western experts believe this aim may be achieved. Exploration for new wells reportedly has been moderately successful.

But in a land of plentiful oil, gasoline today is strictly rationed. One pump in all of Bucharest sells ethyl and that is reserved for the fast cars of Communist big-wigs. Only a poor quality of gasoline is available at regular gasoline stations.

Since Romania exports virtually no oil to the West, the conclusion is that Russia takes almost all. Some may go to other satellite nations.

Russia's financial and technical control is maintained by a joint Soviet-Romanian company.

Similar "Sovroms" control the greater amount of Romania's natural gas, metals, wood, chemicals, shipping, oilfield equipment, air and all other transport except rail-roads.

Romania's assistant foreign minister, Grigore Preoteasa, significantly ignored an American correspondent's question about what Russia is taking out of the Romanian economy and what she is putting in. Westerners say the Soviet Union has repaid Romania with printing presses, buses, some industrial machinery, some food and some dock equipment.

But a lot of this returns to Russia one way or another—in Soviet propaganda, armaments or defense of the Soviet sphere.

For example, there are reports of considerable defense construction along the Black Sea coast near Constanta. Diplomats who have visited that port say it is a "complete military city." The Russians are believed to have their troop headquarters there and many naval and air bases nearby.

Soviet troops can be seen almost everywhere in Bucharest, and at railway stations between Bucharest and the Hungarian border.

Russian bases appear often to be disguised as Romanian, if the example of an airfield north of Bucharest holds generally true. Over the entrance, a sign identified it as Romanian, but Russian soldiers stood on sentry duty.

**Mayor Is Accused
In \$2,800 Theft**

CLEVELAND (AP)—Parma Heights Mayor Frank J. Breen has been charged with theft of \$2,800 from a building contractor by promising to get him a liquor license through influence.

Contractor Myron Chicota said Breen promised to get Chicota a D-3 permit for \$7,500—\$400 to cover the actual cost of the permit and \$7,100 for "influential friends in Columbus." Chicota said he gave Breen checks totaling \$3,800, and later was repaid \$1,000 when the permit was not forthcoming. Breen said the amount represented a loan.

**Texan To Follow
Opposite Advice**

FREEDOM VILLAGE, Korea (AP)—A lean Texan freed by the Communists today said his Red captors urged him to quit the Army when he returned home.

But Sgt. Wesley D. Little of Borger said, "I'm going to take my turlough, then I'm going to re-enlist and if they want me to come back here I'll fight the bastards again."

Letters To Editor

Washington C. H., Ohio
August 15, 1953

Editor,
Record-Herald
Dear Sir:
I must take exception to your editorial praising General Omar Bradley.

Having read only General Bradley's own account of his European service, I do not feel that I have a rounded enough viewpoint to comment on that phase of his service.

However, his performance as chairman of the Joint Chiefs of Staff has been reported by various news sources and views expressed by many commentators.

It isn't a pretty picture that one sees.

The actors have been, the ailing F. D. R. with Alger Hiss to advise him; Harry Truman who liked "Good Old Joe," Dean Acheson who wouldn't turn his back on Alger Hiss, a number of lesser state department officials who, to put it mildly seem to have felt kindly toward Communism, General Marshall, General Bradley, and now it looks like even Pres. Eisenhower and Secy. Dulles appear all set to sell Korea down the river, just as predecessors sold out Poland, Yugoslavia, China, and others to the Reds.

A non-Communist China and Japan could have well supplemented each other in trade. As it is, we are faced with either supporting Japan or permitting her to trade strategic manufactured goods to Red China for raw materials.

That General Bradley either believed in the policy that brought all this about, or else he wanted to hold on to his job badly enough to give it lip service, is a conclusion that I have trouble in avoiding.

It seems quite significant to me that high military officials longest connected with Asian and Korean affairs pretty generally believe our Asian policy has been wrong and that the Korean war could well have been won, while those less familiar with it have been the over-riding power that has smoothed the way for Communism in Asia.

In particular reference to Gen. Bradley, it was he who was largely responsible for scuttling the large aircraft carrier upon which construction was started. The Korean situation later clearly showed the need for such craft, and a slightly smaller carrier was started but at a much higher cost to the taxpayers.

One of Gen. Bradley's arguments was that the admirals of the Navy were "Fancy Dancs."

Substituting name calling for logic is hardly an indication of greatness.

Yours very truly,
Chas. D. Creamer
Washington C. H., Ohio
August 17, 1953

Editor,
Record-Herald
Dear Sir:
I read your editorial of August 17 with a great deal of interest. It all pertains to truck noises, something that goes on at my place of abode, 731 Clinton Ave., corner Clinton and Oakland Avenue intersection. This noise goes on 24 hours a day partly due to leaving the school light on. Stopping and starting the many large trucks that pass

Good Weekend Buy Is Lamb

What Many Stores,
Plan To Feature

(By The Associated Press)

How about a roast leg of lamb for Sunday dinner? Judging by reports from food stores over the nation, it will be one of the best buys in meat this weekend.

Many stores will lower their prices on legs of lamb, with reductions running generally from two to six cents a pound. One big chain said it planned to cut the price by 14 cents in the New York area, bringing the price down to where it was in March, 1950.

There were good buys in some cuts of beef, but it was difficult to generalize. Sirloin steak will be a couple of cents higher in some sections of the country and as much as six cents cheaper in others. The same was true of rib roast.

Beef liver will be a feature in numerous stores. Other beef specials mentioned included chuck roast, round roast and ground beef.

Pork is on the loose again. After dropping off from its lofty peaks a few weeks ago, it has started climbing again. Pork chop prices reported by one of the biggest chains: Pittsburgh, up two cents over a week ago; Boston and Philadelphia, up six cents; New York, up 10 cents, and Chicago, up 14 cents.

Eggs will cost you more, too. They will be about two cents a dozen higher in many stores.

As if to compensate for higher prices in the meat department, there will be numerous good buys in vegetables: Green beans, beets, cauliflower, celery, corn, onions, potatoes, peppers, tomatoes and cabbage.

on this street creates a terrific din. As we see it there is no use leaving this light on all the 24 hours. We neighbors have made complaint to the city fathers over and over without seemingly any consideration as to how much the nuisance annoys people.

We contend if the light was cut off at 9 P. M. each evening it would be very helpful in trying to get sleep and rest. The stopping and starting of motors is a terrible nuisance. If they were allowed to keep moving it would at least be a great improvement.

I thank you for calling this matter to the public attention.

Yours truly,
Roy Reno

Airline Planning Cruise Of World

WASHINGTON (AP)—Pan American World Airways has asked the Civil Aeronautics Board to approve "if approval is necessary"—a proposed luxury air cruise around the world.

Pan American says it plans to carry 30 passengers on the three-month cruise at a fare of \$15,000 a passenger.

The DC6B airliner, fitted with sleeping accommodations, lounge, bar and full galley service, would leave New York about Jan. 21.

Browns Like To Spoil Bill Pierce's Tilts

Chisox Hurier Sees Lowly St. Louis Crew End Another Streak

By The Associated Press
If you've got a streak running it's best to stay away from the St. Louis Browns. Just ask Billy Pierce.

The Browns have given the little Chicago left-hander nothing but trouble this season. He has an excellent 16-8 record but look what the lowly St. Louis outfit has done to him.

In his first start, April 16, Pierce had a no-hitter going for six innings. Then Bobby Young doubled and spoiled it.

Ten days later the Browns beat him 7-2 for his first loss in 10 starts dating well back into the 1932 season.

On June 30 the White Sox were riding a seven-game winning streak. But they threw Pierce at the Browns and lost 4-2.

Yesterday Pierce faced St. Louis with a string of 34 scoreless innings in his last four appearances. The Browns snapped it at 40 with a pair of unearned tallies and went on to score two earned runs in the 10th and win the game 4-3. The fast-balling southpaw had pitched 51 innings without giving up an earned run.

The ship against St. Louis cost the White Sox a full game in their more and more futile pursuit of the New York Yankees. The Yanks edged Washington 2-0 and now lead the league by 8 1/2 games.

Boston defeated Philadelphia 6-4 and Detroit whipped Cleveland's Early Wynn for the first time in three seasons 4-2.

Brooklyn continued its whirlwind drive toward the National League pennant with its 12th straight victory, an uphill 7-5 triumph over the New York Giants.

Milwaukee edged Cincinnati 3-2 and stayed 8 games back of the Dodgers. Pittsburgh beat Philadelphia 5-3. Chicago defeated St. Louis by the same score.

For 2 2/3 innings Washington continued its mastery over the Yanks. Then Yogi Berra got the first New York hit, a home run. Al Sima gave up only three other hits and one more run, but his teammates couldn't do anything with Jim McDonald, who also yielded four safeties.

Ted Williams hit his third home run since returning to action, providing the Red Sox victory margin over Philadelphia.

Home runs by Bob Nieman and Steve Souchock helped Billy Hoelt break his four-game losing streak with a decision over Cleveland.

Three-run rallies in the third and eighth innings enabled Brooklyn to overtake and whip the Giants, who had built a 5-1 lead. Duke Snider's single with the bases loaded in the eighth produced the winning runs.

Andy Pafko ran his hitting streak to 17 games with a ninth-inning home run that gave the Braves their triumph over Cincinnati.

Curt Simmons lost his 11th game when the Pirates got two runs in the eighth at Philadelphia.

Four walks allowed by Joe Presko in sixth inning plus an error gave the Chicago Cubs the two runs they needed to beat St. Louis.

Even Greenberg Amazed At Tribe

DETROIT (AP)—Even general manager Hank Greenberg had a hard time today trying to understand the sudden collapse of his Cleveland Indians.

Greenberg was a spectator yesterday as the Tribe dropped a 4-2 decision to the Detroit Tigers for its fourth straight defeat—two by last-place St. Louis and two by the seventh-place Tigers.

He said his only reason for coming here was "to see it with my own eyes." After the game, he still was having trouble believing it.

Columbus Girls Win State Title

SPRINGFIELD (AP)—Columbus defeated Dayton Registers 4-1 last night to win the state women's softball championship.

Columbus will play in a regional contest in Washington C. H. beginning tomorrow.

Illinois Fair Sets Preview Trot, Pace

SPRINGFIELD, Ill. (AP)—Preview of the 1954 Hambletonian and Little Brown Jug stakes, top harness racing events, will be offered at the Illinois State fair today when the Greyhound 2-year-old trot and Little Pat 2-year-old pace present the leading juveniles racing on the Grand Circuit.

Fifteen have been named in the Greyhound, which really lifts the lid on 2-year-olds of the season. A field of 19 has been named for the Little Pat.

Review Futurity 3-year-old pace also will be on today's card.

Kimberly Kid, owned by Allwood Farms of Far Hills, N. J., took his place as one of the standout 3-year-old trotters when he won the Review Trot yesterday, beating a field of 15, including 10 other contenders in last week's Hambletonian.

His time in each of the three heats was faster than that at Goshen last week—2:04.4, 2:01 and 2:01.2.

Helicopter, who won the Hambletonian, finished second in a race limited to three-year-old trotters of her own sex when Castleton Farms' Earl's Song won, setting a season's record for age, gait and sex by taking her first heat in 2:02.2.

Caddies Eyeing College Education

COLUMBUS (AP)—The National Caddie Golf Tournament went into its second day of match play today with a college education riding on every stroke.

Semi-finals are tomorrow and finals Saturday. Some \$5,000 in scholarships await the winners.

Francis Malara of White Plains, N. Y., and Lloyd Syron of Pontiac, Mich., were the qualifying medalists and they kept stride yesterday with easy victories.

Malara defeated Robert Sullivan of Denver 2 up, and Ed Brinegar Jr., Lexington, 4 and 3.

Syron, another 17-year-old, beat John Godey of Louisville, 4 and 3, and Joe Kotlarczyk of Toledo, 2 up.

Reno Pitches A One Hitter

Wins Over Armbrust; Rockers Also Triumph

A one-hit game was hurled in the softball game played at Wilson Field Wednesday night to determine who will be the "host" team in the men's regional softball tournament to be held here on Sept. 4 to 7.

Jack Reno performed the one hit affair as he led his Dayton Power and Light teammates, to victory over the Armbrust team, 3 to 0.

In the other game last night, the Rocking Chair Inn ended on top of the American Legion after a slugfest, 12 to 11.

Four teams are now eliminated from the county tournament. They are Armbrust, American Legion, Pennington Bakers and NCR. The finals of the tourney will be held Thursday (tonight) as a triple header will be played.

IN THE FIRST game tonight, the Cardinals and Don Wood will take the field at 7 P. M., and the Rocking Chair Inn and the DP&L will follow at 8 P. M. The winners of these two contests will play at 9 P. M. to decide the host team.

It took the Rocking Chair Inn only one big inning to win its game from the American Legion. In the sixth frame, the Rockers shoved eight runs across the plate on six hits, three errors and one walk.

This team accounted for three other markers in the fourth frame and one in the seventh.

The Legion tallied three runs in the second, one in the fourth, three in the fifth and two each in the sixth and seventh frames.

Evans was given credit for the win and Self was charged with the defeat.

A single in the second inning by Mongold was the only hit that Armbrust got off of Jack Reno as the DP&L won 3 to 0 in the nightcap.

The DP&L banged out eight hits off of the losing twirler, Johnson. Dick Korn picked up two hits for the Light boys.

The winners tallied two of its runs in the second frame and one in the sixth.

Cincy To Play Illinois Outfit

COLUMBUS (AP)—Cincinnati Bentley Post, defending National American Legion junior baseball champ, will play Winnetka, Ill., today in the regional tournament.

Cincinnati defeated Lafayette, Ind., 5-3 yesterday, topped Detroit Edison Post, 5-0. Detroit and Lafayette play in a second game.

\$30,000 Is Offered In Coon Dog Trials

Purses estimated at \$30,000 are offered in the fifth World's Championship Coon Dog Field Trials to be held near Wilmington, Sept. 6 and 7.

Sam Hankins of Hyde Park, N. Y., and Frank Dangenhart, Springfield, are managers of the coon dog classic, and a purse of \$2,500 is guaranteed for the finals.

The first tree in the finals will bring the winner \$800 and a trophy; first line will pay \$700 and a trophy; second tree, \$500 and a trophy; second line, \$400 and trophy, and third line, \$100.

Bill West of Martinsville, owned the champion hound in the 1952 event.

Last year the event attracted 680 dogs.

The annual bench show will be staged in connection with the field trials.

Chuck Volo Due For Major Test

YONKERS, N. Y. (AP)—Chuck Volo, the surprise 36-to-1 longshot who won the \$50,000 Nassau Pace at Roosevelt Raceway three weeks ago in world record time, will try to repeat tonight in the \$25,000 Yonkers Pacing Derby.

The brown 5-year-old son of Volomite, out most of last year with a broken foot bone, is owned by S. A. Wathen. A dozen speedy pacers are scheduled to face the starter in the derby.

The probable favorite in the mile and one-half race is Direct Rhythm from the stable of W. G. Reynolds, Louisville, who also will start Meadow Rice.

Maurice Kuykendall, former assistant starter at Monmouth Park, starts the thoroughbreds at Mexico City's Hipodromo de las Americas track.

Sal Maglie lost 15 of his first 18 decisions while pitching for Buffalo.

Mrs. Newhouse Ladies' Winner

Captures Honors In Wednesday Event

Mrs. Homer Newhouse of Sabina and Mrs. Wm. Buxton captured the honors of the Ladies Day golf at the Country Club here Wednesday.

Mrs. Newhouse had the low net score (gross minus handicap) of 34 and Mrs. Buxton had low gross score, of 52.

Right behind Mrs. Newhouse in the net score department was Mrs. Hugh Zimmerman and Mrs. Marvin Roszmann, both with a 35.

Bud Schlu and Mrs. Roszmann both had 55's in the gross scores. Mrs. Dick Davis had a 56, Mrs. Mary Gillespie, a 59 and Mrs. Harry Fox and Mrs. Dwight Coffman, both 59's.

Mrs. Harry Fox had the fewest putts for the day, 14. Mrs. Bud Schlu, Mrs. Mary Gillespie and Mrs. Dick Davis were all tied for second place with 16 putts apiece.

The most improved golfer of the week was voted to be Mrs. Joseph Herbert. Winner of the blind bogey event was Miss Ellen Gillespie.

Other net scores were: Mrs. Elmer Reed, 40; Mrs. Marie Jones, 45; Mrs. Howard Osborne, 45; Mrs. Merle Boyle, 36; Mrs. Mac Wilson, 52; Mrs. Hugh Payton, 51; Mrs. Sam Parrett, 45; Mrs. Joe Herbert, 36; Mrs. Robert Green, 40; Mrs. Scott Harner, 43; Mrs. William Haines, 39; Mrs. Charles Bottenfield, 43; Mrs. Jess Carter, 40; Mrs. George Gray, 57 and Mrs. J. E. Dabe, 42.

New Carlisle Team Loses, Then Wins

New Carlisle, which won the Ohio state semi-pro baseball tournament played at Wilson Field here the last part of July and the first of August, won its first victory Wednesday in the national tournament being played now at Wichita, Kans.

The Ohio champs defeated the Rutland, Vt., Bulldogs, 7 to 1, in a game played Wednesday. This eliminated the Rutland team from the tourney.

In the first game that New Carlisle played, Tuesday, it was defeated by the Casa Grande, Ariz., Cotton Kings, 6 to 1.

Big Trapshoot Goes Into Top Money Stage

VANDALIA (AP)—The 54th Grand American Trapshoot goes into the "big money" stage today.

More than 1,500 of North America's sharpshooters fire today in the preliminary handicap, a 100-target event in which the novices shoot from as close as 17 yards and the experts are back as far as 25 yards from where the flying clays emerge.

The preliminary is exactly like Friday's Roaring Grand feature, the Grand American Handicap. But in the minds of the marksmen, it is as unimportant as is the second race at Louisville on Derby Day.

Joe Hiestand of Hillsboro finished second yesterday in the shoot-off to determine Champion of Champions. Six state champions had broken 100. Arnold Rieger of Seattle won the shoot-off.

A bearded farmer, Marion Partlow, 37, of Casey, Ill., won the major event—the Class AA title—in a shoot-off after he and three others had tied with perfect 200 scores.

Lyon Crawford, who operates a screw manufacturing plant in Harvey, Ill., broke an extra 50 straight to win the Class A title after deadlocking with three others at 199.

Iowa won the five-man team championship with a score of 987 of 1,000. Illinois and Ohio tied for second with 979.

Reds No Problem To Milwaukee

CINCINNATI (AP)—The Milwaukee Braves, runnerup to the league-leading Brooklyn Dodgers, have little trouble with the Cincinnati Reds.

By clipping the locals, 3-2, yesterday afternoon, the Braves took the two-game series here and ran their season total to 11 victories in 17 decisions with the Rhinelanders.

Andy Pafko, slugging right fielder, came through with a game-winning home run in the dramatic ninth.

Dancer Seeks 1953 Sully Driving Title

COLUMBUS — Young Stanley Dancer of New Egypt, N. J., is setting a blistering mid-season pace as he seeks to become the nation's leading harness racing driver.

Figures compiled by the U. S. Trotting Association through Aug. 10, halfway point of the season, credit Dancer with 79 victories, five more than he registered all last year when he finished 11th nationally.

Dancer has a 15-race edge over runnerup Billy Houghton of Fulton, N. Y. Johnny Chapman of Toronto is third with 59. All three of the leaders are in their twenties.

Leaders In AA Both Defeated

By The Associated Press
Third-place Indianapolis and fourth-place Kansas City tightened up the American Association flag race a couple of notches last night by respectively upsetting Toledo and Louisville.

Lefty Dick Tomanek set down the Toledo Sox, 6-1, on three hits to gain his 11th victory for Indianapolis. Kansas City, aided by four Louisville errors, defeated the Colonels, 6-5. In other league games the last-place Charleston Senators made it three straight over Columbus by sweeping a pair, 6-3 and 5-3, and Minneapolis stopped St. Paul, 5-4.

3C Highway West

I was ahead in every way after this demonstration!

I figured on paying about \$200 more for a new car . . . until I discovered all that Chevrolet offered me.

You get more power on less gas

Here's all the power and performance you could ever ask for. And along with it comes the most important gain in economy in Chevrolet history! That's because of Chevrolet's two great high-compression engines.

You can see all around

You look out and down at the road through a wide, curved, one-piece windshield. The panoramic rear window and big side windows provide a clear view in all directions.

It's heavier for better roadability

You're in for a pleasant surprise at the smooth, steady ride. One reason is that, model for model, Chevrolet will weigh up to 200 pounds more than other low-priced cars.

You get greater getaway with the new Powerglide

Finer performance on less gas. That's what you get with the new Powerglide. There's no more advanced automatic transmission at any price.

Even Power Steering, if you want it

You ought to try Power Steering to see how easy driving can be. You can spin the wheel with one finger! It's optional, of course, at extra cost, and available on all models.

Let us demonstrate all the advantages of buying a Chevrolet now!

MORE PEOPLE BUY CHEVROLETS THAN ANY OTHER CARS!

DAILY CRYPTOQUOTE—Here's how to work it:
A X Y D L B A A X R
I S L O N G F E L L O W
One letter simply stands for another. In this example A is used for the three L's, X for the two O's, etc. Single letters, apostrophes, the length and formation of the words are all hints. Each day the code letters are different.
A Cryptogram Quotation
'MIDJD KGJD MSNA IGKNA MG QD
IFVD: 'MIDJD KGJD MSNA IGKNA MG
IFVS MSDD VG-KGGJD.
Yesterday's Cryptquote: THE PURITAN HATED BEAR-BAITING . . . BECAUSE IT GAVE PLEASURE TO THE SPECTATORS—MACAULAY.
Distributed by King Features Syndicate

Dionne Quints
Going Own Ways
NORTH BAY, Ont. — The Dionne quintuplets, together since they were born 19 years ago, are now to go their separate ways. Marie will become a nun and her sisters will continue school.
Their father, Oliva Dionne, told the North Bay Nugget last night that Marie will enter a Catholic religious order. Yvonne will study art with the Notre Dame Congregation in Montreal, and Cecile, Annette and Emilie will attend the Institute Familial in Nicolet, Que.
Dionne explained that the group was being broken up because the quintuplets "are thinking seriously of their future."
